**Subject:** For UC Info and Review - Plains Response Update - UC  
[Plains Update 9-15-15 clean.docx](#)

UC,

Attached is a revised update on oil spill cleanup operations that Plains wishes to post/release this week on their plainsline901response.com site (as Plains, not as RP/UC). Below is the e-mail string forwarding the update and discussing changes they have made from the previous version. Please let me know if you have any concerns or issues with the response update.

The document (page 2) includes a bullet/discussion of Natural Resource Damage Assessments that are not part of the UCs operations. If your agency has concerns or comments with this portion of the statement apart from your role as a UC member please make that known so it can be resolved outside the JIC/UC system.

Thanks,

Dan Dewell

Subject: Plains Line 901 Update - revised

Hello Ryan, Alexia,

We have made some changes in the language of our Line 901 Update that we believe will address the issue of the amount of shoreline being monitored. Instead of describing the actual percentage of active shoreline monitoring, we changed that to say "a portion of the impacted shoreline." We have also added a bullet to address the NRDA process. Both items have been highlighted in the attached.

We are planning to post this to our [www.plainsline901response.com](http://www.plainsline901response.com) <<http://www.plainsline901response.com>> website this week. Please let us know if there are any concerns or objections from either the County or UC now that we have altered the language.

Thanks,

Meredith
